## **Metrofuser's Flash-It™ Restores Life to HP 4700 Transfer Kits**

New Tool extends the life of the 4700 transfer belt and maximizes consumables.

Laser printer parts manufacturer Metrofuser ([www.metrofuser.com](http://www.metrofuser.com)) has introduced the Flash-It Tool – a new solution that extends the life of the 4700 transfer belt. This technology has the potential to save service companies thousands of dollars.

The HP LaserJet 4700 Series transfer belts are programmed to generate an error message reading "REPLACE TRANSFER KIT" when the page count hits 120,000 pages. The only way to remove that message and restore the lifecycle, up to now, has been to purchase a costly new transfer kit.

The Flash-It Tool will set the transfer kit life to 100% and clear the "REPLACE TRANSFER KIT" message. This will allow the printer to continue to utilize the existing transfer kit far beyond the 120,000 pages. "One of the added benefits of the tool," said Will Demuth, Metrofuser's Chief Operating Officer, "is that you can flash the lifecycle at any point. You don't have to wait for the error message. Technicians will be able to flash and synchronize fleets allowing scheduled maintenance rather than crisis management."

The ETB Flash Tool performs unlimited flashes, saving companies thousands of dollars in consumables and service calls. Demuth predicts that Flash-It will become an essential tool for dealers and service companies who have multiple 4700 printers in MPS environments. He noted that "this is just another example of how Metrofuser remains committed to distinguishing ourselves as the foremost supporter and partner to companies using managed print services."

The Flash-It Tool is easy to use, comes with comprehensive instructions and is backed by toll-free US-based tech support. It is compatible with the following printers:

HP Color LJ CP4005dn (CB504A) HP Color LJ CP4005n (CB503A) HP Color LaserJet 4700 (HP Q7491A) HP Color LaserJet 4700DN (HP Q7493A) HP Color LaserJet 4700N (HP Q7492A)

### **About Metrofuser**

Metrofuser remanufactures and distributes laser printer parts, remanufactured printers and offers service training for HP, Lexmark and Canon laser printers. The company offers a broad array of laser printer products from its Eastern and Western distribution hubs including fusers, maintenance kits, boards, and paper handling assemblies. Metrofuser has been named to Inc. Magazine's fastest growing companies for three consecutive years. For more information, visit <http://www.metrofuser.com>, or call 888-FUSERS-1 Ext 107
